For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing BROWN'S IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not lost so well in six years as I do at the present time.
Mrs. L. F. GRIFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

EDITORIAL NOTES.

Commodore Henry Eagle, who died yesterday in New York, was commissioned Lieutenant March 3, 1829. He commanded the schooner Shark on the Pacific Station in 1842, '43 and '44 and was commissioned commander June 4, 1844. He superintended the construction of the Stevens iron ship at Hoboken for three years, and was Inspector at New York. In 1846 he commanded the bomb Etna and a division of five vessels of a squadron during the Mexican war.

The worst defeated man in the country is Governor St. John, the great apostle of prohibition in Kansas. He is beaten on the liquor question in a State which has incorporated prohibition into its constitution; and what is hardly less significant, he is beaten on this question as the candidate of a party which has 60,000 majority in the State.

Nevada City, California, has a lost Charley Ross. Fred Gillespie, a six-year old, cannot be found, though the surrounding country has been diligently searched.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN DISPATCHES.

The President Lectured.

WASHINGTON, Nov. 26.

The Postmaster and Assistant Postmaster who were removed Saturday by the President for alleged sympathy with the Star Routers, have addressed the following to the President:

MR. PRESIDENT—Sir: Learning through the public press for the first time that by your order we have been removed from the positions of Postmaster and Assistant Postmaster of this city on the ground that we have been guilty of misconduct as officers of the Government, which allegations are false in every particular and damaging to us, we avail ourselves of this early opportunity to bring the matter to your attention, in case said reports are authentic, and asking of you that before you finally confirm this alleged action you will suspend such summary proceedings until the matter can be thoroughly investigated by a commission, or by any fair method your wisdom may suggest, to arrive at a just and correct conclusion. The charges against Tidball, late Government Office Inspector, to which Bliss alludes in his letter to you, were met with more than a year ago, and explained to the satisfaction of the department. As to the charge that we, directly or indirectly, interfered with the so-called star route cases we deny. As to the correspondent of Mr. Ainger in his home paper, it was simply the substance of what was stated by the court from the bench at the time and was reflected as a matter of news only. While we do not question your right to assign as a cause for such suspension and removal conduct and action alike damaging and injurious to us as public officers and honorable men without giving us opportunity to be heard. You must be aware that these reflections, which are virtually slanders upon our character, receiving the official sanction of your high office, leave no other course than this application and appeal to your sense of right and justice. As officers we willingly yield, but to the aspersions on our character we enter a respectful but earnest protest. Very respectfully, your obedient servants,

D. B. AINGER,

M. M. PARKER.

A Star-Route Platitudes.

NEW YORK, Nov. 26.
A reporter interviewed George Bliss, on whose recommendation the recent removals were made by the President, Bliss stated:

"Every body was tired out when the star route trials ended in the summer and was anxious to get away from Washington, so that no action was taken then. The time for the trial is now near at hand, and in preparing for it I thought, as I said in my letter, that the atmosphere ought to be purified. That is why it comes now."

"Are there to be any more removals?"

"I know of no others contemplated. At least I have made no recommendations; but I would be likely to know about others if contemplated."

"Will Spencer be a witness in the new trial?"

"I don't know. He is in Nevada, but when any attempt is made to reach him he disappears in the mountains."

"Will you have new witnesses or additional testimony in trying the cases over again?"

"Yes. Some of it is important, and the trial will be pushed vigorously."

The Wreck of a Millionaire.

NEW YORK, Nov. 27.
John Tobin, ex-President of the Hudson River Railroad, and at one time a power in Wall street, was arrested Saturday evening for drunkenness. He was locked up in the First Precinct station and yesterday was taken before Justice Morgan at the Tombs Police Court, who discharged him with a reprimand. He was formerly a millionaire and a man whose operations set the stock exchange in an uproar, and influenced speculation all over the country. He has become an utter wreck physically as well as financially. In the days of his prosperity his speculative schemes were on the scale of those of Vanderbilt and Daniel Drew, and he dealt in shares by the 100,000. Now he is little better than a beggar, and the police say he is rarely seen sober.

Mrs. Langtry Socially.

NEW YORK, Nov. 26.

Predictions as to Mrs. Langtry's reception in New York society don't seem to have been fulfilled. Several rich and fashionable bachelors have given to her and her friend, Mrs. Labouchee, dinners and suppers at Delmonico's and lavished upon her attentions in the shape of visits, bouquets and drives; but no one has heard of her appearing as a guest at any social. Whether this is owing to her failure to receive invitations or whether she has been unable by reason of professional engagements to accept them cannot be said.

Arthur's Conscience.

CHICAGO, Nov. 26.
The Times will say editorially tomorrow: While it is possible there may be some political significance in the sudden Executive onslaught upon

the star route gang, and that it may be the initial act in a coming series of works meet for repentance suggested by the popular judgment pronounced some three weeks ago, the probability at this writing seems to be that the President has only yielded, perhaps reluctantly—he has certainly yielded tardily—to representations from the department of justice which he could not afford to disregard. If compelled to part company with the present Attorney-General, under any circumstances, the grief of Arthur might not be inconsolable; but to let that officer resign for the notorious reason that his efforts to bring a gang of public robbers to justice were opposed and baffled by conspirators holding office under the Government would be a cause so scandalous that the most hardened politician might hesitate to pursue it. The public will await further developments before concluding that removals should be credited to an awakening of Executive conscience rather than to an instinct of self-preservation.

Report That Folger Has Resigned.

WASHINGTON, Nov. 27.

Folger has offered and the President has accepted his resignation as Secretary of the Treasury, to take effect on the 15th of December. It is understood that Folger after his resignation will take up his residence in New York City as counsel of the New York Mutual Life Insurance Company. All speculation as to his probable successor in the Treasury Department would be premature.

WASHINGTON, Nov. 27.

It is probable that Richard Crowley will be appointed in Judge Folger's place.

WASHINGTON, Nov. 27.
The lease of Folger's residence in this city expires the 15th of December. Friends of the Secretary attribute the report of his resignation to that fact. Folger, however, has renewed the lease for a year.

A Murderer in Jeopardy.

INDIANAPOLIS, Nov. 26.

Buck Stout, murderer of a man named Exter, was taken to Crawfordsville last night. A mob organized at Colfax and Darlington, through which places the train passed, for the purpose of hanging him; but the officers in charge, hearing of it, left the train at Thornton and drove through. They were headed off at one or two places, but succeeded by rapid driving in reaching Crawfordsville jail with their prisoner. It is feared further efforts will be made to take Stout from jail and hang him.

A Lecherous Psalm-Singer.

LOUISVILLE, Nov. 28.

An Elizabethtown (Ky.) special says: A great sensation is caused by the arrest of Rev. J. G. Wharton, alias J. D. Hill of Carthage, Mo., charged with embezzlement. He had with him at the time of his arrest, Mrs. Maggie McGill, wife of another Carthage man. It is said that Wharton is father of 15 children; the women is mother of three, all left behind. Wharton took a prominent part in religious meetings at Elizabethtown.

Very Important Information.

WASHINGTON, Nov. 26.

The National Republican to-morrow will print the following: "I have not had any conversation concerning the office of Secretary of the Senate which was intended for publication. I have not had any private conversation on that subject which has been correctly reported, although I am sure there has been no intention to misquote me."

(Signed): GEORGE C. GORHAM.

The Teletype Telephone.

CHICAGO, Nov. 26.

An Etna Green (Indiana) special says: Last night M. Smalls, a merchant, was awakened by the ringing of a telephone connecting his house and store. He arose, went to the store, where he found burglars at work and exchanged shots with them and drove them off. It was found that they had blown open the safe, and the detonation caused the telephone to ring.

A Schoolmaster and Journalist Dead.

DENVER, Nov. 26.

Professor O. J. Goldrick, who has lived in Colorado since 1859, died at an early hour this morning of pneumonia. Mr. Goldrick established the first school and Sunday school in Denver, and has also been connected with several of the daily papers at different times. He has conducted the Rocky Mountain Herald since 1868.

Carolina Sport.

FAYETTEVILLE, N. C., Nov. 26.

A riot occurred here last night among horse traders in attendance on the Fair. Over thirty men were hurt, two mortally. Harvey Underwood was shot by a woman and killed. The authorities are helpless and the citizens in a state of terror. The county authorities made numerous arrests. Over 100 people were engaged in the riot.

A Desperate Lover.

LANESBORO, Nov. 27.

Christian Johnson, after firing what he supposed to be a fatal shot at his affianced, blew his brains out. The girl was only slightly hurt.

Ingersoll Indignant.

CHICAGO, Nov. 26.

Col. Ingersoll, of counsel in the star route cases, said in an interview to

night on the subject of Saturday's dismissals by President Arthur: "It is an effort on the part of the Government to terrorize the jury. I believe Marshal Henry is as honest a man as ever lived. He never did the slightest favor for the defendants. He simply did his duty—no more, no less. The reason they want him to go is that they may put some one in who will do more than his duty. They want to get control of the jury. I never dreamed that Ainger or Parker were either friends or enemies of the department. These men have been put down without a hearing. Nothing more unjust, nothing more infamous, has been done in the history of the country. The idea that a city officer cannot give his opinion of the innocence of a party being prosecuted by the Government without removal is simply horrible. Their idea is that every officer is a dog that can be hit on any defendant by the Attorney-General. The doctrine is too contemptible to find lodgment in the brain of any decent man."

A Retired Politician.

HAMILTON, Ohio, Nov. 27.
Lewis D. Campbell, prominent in State politics for many years, Chairman of the Ways and Means Committee of Congress, but lately retired from public life, died yesterday.

Poverty and Distress.

That poverty which produces the greatest distress is not of the purse but of the blood. Deprived of its richness it becomes scant and watery, a condition termed anemia in medical writings. Given this condition, and scrofulous swellings and sores, general and nervous debility, loss of flesh and appetite, weak lungs, throat disease, spitting of blood and consumption, are among the common results. If you are a sufferer from thin, poor blood employ Dr. Pierce's "Golden Medical Discovery," which enriches the blood and cures these grave affections. Is more nutritive than cod liver oil, and is harmless in any condition of the system, yet powerful to cure. By druggists.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Knebeling Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their trouble. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and excites a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from lassitude and weakness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment, the Extract will prove an excellent substitute for food. It neither purges nor the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the weakness of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and revivifies the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are inclined to Consumption—will find this preparation especially suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of fat-producing foods, and it effectually gives fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, acrometic to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fine engraved likeness of Baron von Liebig, and is sold by all druggists, as well as that of A. VOGLER & CO., HAMBURG, N.Y., Sole Agents for America.

THE STUFFED CLUB.

The Crack Shots of Reno Distinguish Themselves.

At the regimental shooting of the Reno Guard yesterday, the stuffed club was won by Asa Dawson after a hard-fought battle with John F. Alexander and Seymour Bryant. Mr. Dawson has been considered one of the best shots in the company for several months. It is said that he has practiced all summer without saying much about it, waiting for an opportunity to show the boys what he could do. Yesterday Asa, dressed up in full company uniform, even to the white plume, shouldered his Springfield and marched to the range, firm in the belief that the first prize belonged to him. When his name was called the crack shots of the company trembled with fear to think that the honor of making the best score would shortly fall to Dawson and they would no longer be the leaders at the range. Each member was entitled to two "sighting shots," and Dawson claimed them. The first shot he unbuttoned his blue coat, put the butt of his rifle firmly to his shoulder, took careful sight and fired, and, as was expected by those who knew him best, missed the board entirely. The result of the next shot was a duplicate of the first. Asa tried to explain how he had greased his rifle with tallow, in the hope that the company would still have confidence in his skill. He had had the two sighting shots allowed and the next shot was to count on his score. He prepared to make the best showing he could, and stepped to the front and missed the target in good style. The second shot failed to find the board. The third bullet hit the upper left hand corner of the target, and amid cheers the scorer marked him down for two. The fourth shot missed the target, and the fifth made another two. At the end of his string he had made a grand total of 19, and was awarded the club. A well known artist is preparing a diagram of his target to be sent to military headquarters. It was reported in town this morning that Mr. Dawson had sent his company uniform to Captain Moyer, together with his resignation as a member of the shooting team, with a request that he be allowed to keep the white feather. His resignation will no doubt be accepted, and the feather demanded. If ever a worse score was made than that of Dawson's it has not been recorded. Mr. Alexander and Seymour Bryant were the next worst shots, and only beat Dawson's score one point. They, too, have retired from the range to disgrace.

Truckee Items.

(Republican, Nov. 25.)

Several weddings are on the tapis in Truckee.

Large quantities of fine white fish are being brought from Tahoe to Truckee. They retail here at 15 cents a pound.

The District Attorney has filed an information for murder against Chas. Milner, who killed Harvey Dilley at Truckee on the 21st of October.

Captain Burton and Wm. Gouldman have the contract for carrying the mail between Truckee and Tahoe City, the coming Winter. They propose to keep a good road broken between the two places during the entire Winter.

The Chinese wood-haulers are driving their stock below for the Winter.

John Hoy of Reno writes us from that place that fish can be caught in the State of Nevada at any time with hook and line, without violating the law.

A few days ago the steamer Governor Stanford was on its way to the Island House for a load of wood, one of the life boats caught fire from a spark from the smokestack. The fire was under considerable headway before it was discovered. The boat was promptly lowered into the lake, and the flames quenched. It was considerably damaged.

As J. C. Walker was removing some staging in Odd Fellows Hall, a large piece of scantling fell from above and struck him on the left hand, cutting off the fore-finger.

Crops Without Irrigation.

E. J. Wood from the west side of Sierra valley, reports a yield of 81 bushels of barley from one sack (two bushels) of seed, sown on sage-brush land, and raised without irrigation. Mr. Wood is confident, says the Leader, that he would have had 90 bushels had he not hauled away the top of the stack, which was wet by the rain, and fed it for hay. He also raised 700 pounds of "Defiance" spring wheat, which he has grown this season on the same kind of land, also without irrigation, from 24 pounds of seed. It was sowed on the 12th of May and harvested on the 17th of August. Those who think that the valley sage-brush land will not produce anything without water, had better modify their opinions.

The Beef Autocrat of Reno.

Louis Dean is feeding a large band of cattle near town. They now average 600 pounds each, and he calculates they will gain one pound a day until Spring, when he intends to sell them. He is paying \$7.50 per ton for hay. If the market price of beef rises one cent a pound he makes \$5,000. If it falls he don't lose anything, as he stuffs in hay enough to catch up the deficiency.

THE TARGET SHOOTING.

The Reno Boys Make a Very Good Score, Everything Considered.

Following is the score made by the Reno Guard yesterday for the regimental medal:

A. B. Stoddard.....4 4 5 5 4 5 3 5 4 5-44

C. H. Smith.....4 4 4 4 4 4 3 4 4 5-40

The Last Railroad Victim.

The Truckee Republican has the following concerning the brakeman who was killed at White Plains, on the C. P. road, last Friday: L. L. Campbell, or Link Campbell, as he is known among his friends, was about 24 years of age, and well known around Truckee and Lake Tahoe. He is a son of J. B. Campbell, who keeps the Custom House at Tahoe City, and Link has spent nearly all his life on the shores of that lake. A little over a year ago he was married to a daughter of Mr. Schofield, a lumberman at Tahoe, and for several months after that time Mr. Campbell worked in a saw mill at Glenbrook. After leaving there he drove a freight team a short time between Truckee and Tahoe, and about three months ago he got a position breaking on a freight train between Wadsworth and Winnemucca, and removed his wife to the former place. They have one child, an infant only about six weeks old. Mrs. Campbell is a relative of fireman Ripley, of the Truckee division, and as soon as the news of the accident reached Truckee the railroad company provided a special engine, and Mr. Ripley at once went to Wadsworth. J. B. Campbell who, with his family, passed through Truckee for Sacramento Thursday evening, was informed of the sad affair by telegraph, and at once sent a dispatch requesting that the body be forwarded to Sacramento for burial.

Sierra Valley Items.

(From the Leader of Nov. 24.)

The advent of the N. & O. railroad in Mohawk is awaited with interest by the people of that vicinity. When that time comes, the immense forests of pine will have to succumb to the woodman's ax, and the industry thus created will bring many advantages to that section of the country. There are also a number of good mines in Mohawk valley, and capital is only required to develop them and make them paying institutions.

There was quite a crop of potatoes in Mohawk this year, but the early frosts have frozen the ground so that many are yet in the ground, and likely to remain there until Spring.

Frank Travis shot three bears last Saturday, one old one and two cubs, near the Consignee mine. The old one dressed about 200 pounds.

Johnsville is growing rapidly. New buildings are going up and business is good. A new schoolhouse and hall is being constructed. Johnsville is soon to be made a Postoffice. An appointment of Postmaster is looked for daily.

The Plumas Eureka mine is running continuously, and employs at present about 200 men. Superintendent Johns came up from San Francisco Saturday on a visit of inspection.

New Patents.

Dewey & Co.'s Scientific Press Patent Agency has official reports of the following U. S. patents, issued Nov. 14, 1882: Patrick F. Dundon, S. F., return flue vertical boiler; W. M. Ferry, Park City, U. T., steam pump; Jas. O. Hanthorn, Astoria, Or., can washing machine; F. A. Huntington, S. F., stamp mill; Kilborn & Smith, Tucson, A. T., cleaning ash pans of locomotive engines; W. H. McLaughlin, S. F., preparation for masking the nauseous taste of medicines; J. W. Rose, Santa Clara, Cal., kitchen cabinet; A. A. Bynon, Alameda, Cal., device for illustrating fractions.

Choice Groceries.

Manning & Berry have just received a fine lot of choice holiday dinner groceries, consisting of English currants, preserved citron, maple syrup, loaf sugar drip, Armour's mince meat, seedless raisins, Eastern codfish, sweet apple cider, boiled cider, etc. Call and get what you want. Read ad.

A NEW MINE.

A Bonus in a Mineral Region that Will Become Famous.

M. San Pedro of Grantsville, Nye county, one of the most energetic miners in Nevada, went below Saturday evening to make arrangements for opening a mine about 22 miles east of Luning, which he has bonded for \$32,000, paying \$2,000 cash for the bond, which runs 60 days. He believes it is one of the biggest mines in the world. A cross-cut shows the vein to be 110 feet in width. Though the ore is comparatively low grade, there is sufficient of it to keep any number of smelters running continually. It carries about \$35 per ton in silver and enough lead to pay working expenses. A road to the mine will be constructed and a town laid out. That section of the country is coming to the front rapidly. A grand mineral domain is being opened up, and in a few years it will be the most prosperous section of Nevada. The Carson & Colorado road is the great factor in the grand improvement. Four years ago most of the country through which the C. & C. now runs was the most God-forsaken region in the world. Now there is a chain of thrifty camps for more than a hundred miles, that will develop into lively towns before many months.

Title Quitted.

Some time ago Judge Henderson and others relocated the Humbert quicksilver mine near Steamboat Springs. No work had been done on it during the previous year, so that it was clearly open to location. The Humbert brothers demurred and brought suit to dispossess Henderson and his partners. To-day, in the District Court, Judge King dismissed the case, taxing plaintiffs for costs. The mine is a promising piece of property, and Henderson has already organized a company to systematically work it.

Fighting Squaws.

Two drunken squaws had a set to yesterday on Sierra street, near Hoffman's brewer y. They mauled, bit and scratched each other, and pulled hair in the most social manner, all about an old calico dress. They met again back of the theater and nearly stripped each other. How the quarrel finally wound up the reporter cannot say; but when he last saw the gentle maidens of the forest they were a couple of naked abominations, going for each other like two spitting tabby-cats.

Not a Candidate.

Chauncy Notware is not a candidate for the office of Warden of the Penitentiary or any other "within the gift" etc. These stories, says the Carson Appeal, originate with men who when they see a stranger in town immediately reach the conclusion that he is after some fat office. A man cannot come to Carson from Virginia City or Reno, but that he is suspected of wanting to get in somewhere or steal a public building and lug it off in a grip sack.

The Results.

All persons feeling dull or depressed, or perhaps feverish, with no appetite, no energy, the system clogged, the liver torpid and the bowels inactive, who are wondering how to find relief, should purchase a 50 cent or \$1 bottle of Syrup of Figs, read the circular around the bottle, follow the directions, taking a few doses of this pleasant remedy and be restored to health and happiness. It may be had of any druggist.
